NAAC A++ Grade

The Regulations Governing the Choice Based Credit System with Multiple Entry and Multiple Exit Options

(Regulations in accordance with National Education
Policy 2020 with effect from Academic Year 2022-23)

Shivaji University, Kolhapur

The Regulations Governing the Choice Based Credit System with Multiple Entry and Multiple Exit Options (Regulations in accordance with National Education Policy 2020 with effect from Academic Year 2022-23)

Preamble

Shivaji University, Kolhapur is a premier institute of higher learning in southwest Maharashtra established in 1962, accredited by NAAC 'A++' grade with CGPA 3.52 and catering to the needs of HE learners of local and global standing.

Highlighting the importance of flexible learning, National Education Policy 2020 states that imaginative and flexible curricular structures will enable creative combinations of disciplines for study and would offer multiple entry and multiple exit (MEME) options and thus, remove the currently prevalent rigid boundaries. These would create new opportunities for students to choose and learn the subject(s) of their choice. While changing the HEI as per their preference, convenience, or necessity. In order to pave the way for seamless student mobility, the NEP 2020 envisages adjustments in the structures and lengths of degree programmes. Academic Bank of Credits (ABC) ensures seamless student mobility between or within degree-granting HEIs through a formal system of credit recognition, credit accumulation, credit transfers, and credit redemption to promote distributed and flexible teaching-learning. To take this forward, NEP 2020 promotes rigorous research-based specializations and opportunities for multidisciplinary education, at the Graduate, Master's and Doctoral level programmes in HEIs.

To reach to the design of holistic and multidisciplinary programmes as anticipated in NEP 2020, HEIs require some time to streamline it in higher education in India. As stated above, as per their (university's/ college's) preference, convenience or necessity, ideal multidisciplinary programmes may come into existence in future. However, existing undergraduate programmes may be converted into a new framework having multiple entry and multiple exit options and with additions of Skill Enhancement Courses in credit system. The continuous comprehensive evaluation is also a requirement for proper mapping of learning outcomes, course outcomes and programme outcomes as our system is based on principles of outcome based education. Hence, the university will continue its choice based credit system for quality-based evaluation of programmes.

In the light of NEP 2020, IIEI can provide the courses as per their preference, convinces or necessity for the students.

- vii. Faculty will have the freedom to identify and use the pedagogical approach that is best suited to a particular course and student.
- viii. Pedagogies PBL (Problem/Project Based Learning), service learning be brought into practice as part of curriculum. Experiential learning in the form of internship with a specified number of credits is to be made mandatory.

Blended Learning (BL) mode is to be used to help learners develop 21st century skills along with the effective learning and skill development related to the subject-domains. BL should be carefully implemented and should not be replacing classroom time as a privilege. Every institute should strive to be a model institute to demonstrate a successful implementation of BL in the higher education of our country.

Study Webs of Active Learning for Young Aspiring Minds (SWAYAM) is India's national Massive Open Online Course (MOOC) platform (www.swayam.gov.in), designed to achieve the three cardinal principles of India's Education Policy: access, equity, and quality. The University Grants Commission (Credit Framework for Online Learning Courses through SWAYAM) Regulations, 2021 have been notified in the Gazette of India, which now facilitates an institution to allow up to 40 per cent of the total courses being offered in a particular programme in a semester through the online learning courses offered by the SWAYAM platform. Universities with approval of the competent authority may adopt SWAYAM courses for the benefit of the students. A student will have the option to earn credit by completing quality-assured MOOC programmes offered on the

SWAYAM portal or any other online educational platform approved by the UGC/the regulatory body from time to time.

10. Continuous Comprehensive Evaluation

Summative evaluation will not suffice the need of testing all levels of learning outcomes. Modular curriculum demands assessment at several intervals during and after achievement of learning outcomes specified for every module. Cognitive skills such as logical thinking, application of knowledge and skills, analysis and synthesis of concepts and rules demands evaluation strategies other than summative paper pencil tests. Innovative evaluation strategies are to be used by teachers during the semester. Increased weightage of internal evaluation should be encouraged by including innovative assessment and evaluation strategies.

10.1 Summative Evaluation Strategies:

Summative assessment evaluates students' performance at the end of instructional period (may be end of semester). This type of assessment collects evidence of students' knowledge, skill and proficiency. It is done via exit learning products or a cumulative assessment. Pencil-paper test is a popular type of summative assessment whereas there are some innovative strategies like open book examination, group examination, creative assignments, written reports, practical examinations, etc. Summative assessment should be effectively used for appropriate learning outcomes.

10.2 Formative Evaluation Strategies:

Formative assessment helps students to learn and practice throughout the course. It is useful to identify gap and improve learning. It is done via approaches that support specific student needs. Formative evaluation strategies include rubrics, classroom discussion, home assignments, journals, checklists, questionnaire, self evaluation, peer evaluation etc.

Though paper-pencil tests, over-use of question-answers may be discouraged for formative assessments, a few ICT tools for quizzes and games can be used eventually for formative assessment.

10.3 Assessment and Evaluation:

Assessment is an integral part of teaching-learning process. A multidisciplinary programme requires a multidimensional assessment to measure the effectiveness of the diverse courses. The assessment process acts as an indicator to both faculty and students to improve continuously. The following are the guidelines for effective assessment of the programme:

- i. Student assessment should be as comprehensive as possible and provide meaningful constructive feedback to faculty and student about the teaching-learning process.
- ii. Assessment tasks need to evaluate the capacity to analyse and synthesize new information and concepts rather than simply recall information previously presented.
- iii. The process of assessment should be carried on in a manner that encourages better student participation and rigorous study.
- iv. Assessment should be a combination of continuous formative evaluation and an end-point summative evaluation.
- v. A range of tools and processes for assessment should be used (e.g. open book tests, portfolios, case study, assignments, seminars, presentations, field work, projects, dissertations, etc.) in addition to the standard paper-pencil test. The students should be informed about the modalities well in advance. The evaluated courses / assignments shall be immediately provided to the students.
- vi. Paper-Pencil tests should be designed rigorously using a range of tools and processes (e.g. constructed response, open ended items, multiple-choice with more than one correct answer). Faculty may provide options for a student to improve his / her performance in the continuous assessment mode.
- vii. Continuous/ Internal assessment marks shall be shown separately on mark sheets. A candidate, who has failed or wants to improve the result, shall retain the internal assessment marks, provided he/ she fulfil the minimum requirements.

10.4 Scheme for Assessment:

Total marks for each course shall be based on continuous assessments and semester-end examination. Combination of internal assessment (for theory courses only) and semester-end examination for Undergraduate and Postgraduate Programmes will be as follows:

Total marks for each course	= 100 %
Internal Assessment	= 20 %
Semester-end Examination	= 80 %

Provided that for some of the programmes the weightages shall be as approved by Academic Council.

Internal Assessment Process shall be as follows:

- i. The Internal Assessment shall be based on test, assignment, seminar, case study, field work, project work etc. This assessment process should be conducted after completing 50% of syllabus of the course/s.
- ii. In case a student has failed to attend internal assessment on scheduled date, it shall be deemed that the student has dropped the test. However, in case of student who could not take the test on scheduled date due to genuine reasons, such a candidate may appeal to the Programme Coordinator/Principal/Head of the Department. The Programme coordinator/Principal/Head of the Department in consultation with the concerned teacher shall decide about the genuineness of the case and decide to conduct special test to such candidate on the date fixed by the concerned teacher but at least 15 days before the commencement of the concerned semester-end examination.

The outline for continuous internal assessment activities shall be as under:

Outline for continuous internal assessment activities

Level	Semester	Activities Per Semester
5	Semester – I	Assignment
	Semester – II	Unit Test
6	Semester – III	Group Activity
	Semester – IV	Case Study/Oral examination
7	Semester – V	Field Work/Project Work
	Semester – VI	Field Work/Project Work/Seminar
8	Semester – VII	Case Study/Field Work/Project Work
	Semester – VIII	Case Study/Field Work/Project Work

The teachers concerned shall conduct test/seminar/case study, etc. The students should be informed about the modalities well in advance. The evaluated courses/assignments shall be immediately provided to the candidates after obtaining acknowledgement in the register by the concerned teacher(s). The evaluated tests, assignments etc. of the internal evaluation shall be obtained back to maintain them till the announcement of the results of the examination of the concerned semester.

- i. The internal assessment marks shall be communicated to the concerned examination section at least 10 days before the commencement of the university examinations of the concerned programme.
- ii. There shall be separate passing heads for internal evaluation and university examination. Marks obtained in each evaluation system may be recorded separately.
